SOFTWARE Developer in Mt Laurel, New Jersey

201-539-5797 | [AkiLawrencee@email.com](mailto:AkiLawrencee@email.com) | [GITHUB](#) | [LINKEDIN](#) | [PROFESSIONAL PORTFOLIO](#)

I am a dedicated and focused individual with a passion for technology and innovation. I thrive on tackling challenges and aspire to contribute to the management and development of major technology projects across the United States. I was once a government contractor, now I'm a certified software developer. My goal is to be an integral part of a team involved in groundbreaking initiatives that shape the software development landscape nationwide.

## PROJECT EXPERIENCE

### **Donut Clicker** — Donut Clicker Game Simulation

- Designed a Donut Clicker Game Simulation with a team to effectively carry out the same functions of the Donut Clicker.
- We used JavaScript to handle syntax and CSS for styling to make buttons functional and to have a user-friendly interface.
- Enhanced program with sound for improved user experience, boosting consumer appeal.

### **Car Garage Management system** — Garage Simulator

- Created a Garage Simulator with a welcoming interface, guiding users through tasks on specific cars or allowing them to add new ones.
- I used java to handle the syntax, this project was a backend project so no styling required
- Enhanced program by adding more prompts to users and making my output statements more user friendly.

## WORK EXPERIENCE

### **Armed Security Officer**, Department of Defense, Colts Neck, New Jersey April 2022 – Present

- Operate State of the art security software to safely monitor over 400 acres.
- Access the national database to vet hundreds of people daily while working in a team.

### **Pool Technician**, Aquatic Pools and Spas, Haldon, New Jersey June 2020 – 2022

- Communicate with customers to make sure they're satisfied.
- Efficiency service customers pools and sell equipment to increase company profit by %15.6.

### **New Jersey National Guard**, United States Army, Flemington, New Jersey June 2019 – Present

- Engaging in the enhancement of entrance security measures at the United States Senate building to ensure comprehensive fortification.
- Collaborating within expansive teams to achieve mission objectives with maximum efficacy and ensuring a 100% success rate
